FRENCH	Bilingual
ARABIC	Native

SOFTWARE

- **R / RStudio** programming
- Joinpoint Regression Program
- Zotero
- Microsoft Office

SKILLS

TECHNICAL SKILLS

- Critical appraisal of scientific literature
- Statistical Analysis Plan (SAP)
- Statistical modeling
- Sample size calculation
- Results reporting using TLFs
- Scientific Article drafting (IMRaD format)

CLINICAL RESEARCH REGULATIONS

- Jardé Law (RIPH)
- Jardé Law (RNIPH)
- Good Clinical Practice (ICH GCP E6)

SOFT SKILLS

- Teamwork
- Methodological rigor
- Adaptability

WORK EXPERIENCE

2026 April - September

Biostatistician and Research Methodologist
Île-de-France Regional Health Observatory
Project: Trends in Infant Mortality and Stillbirth in Paris region
Responsibilities:

- Analyzed trends in 7 mortality indicators across 10 geographical areas (Île-de-France, its 8 departments, and metropolitan France) over the 2012–2024 period.
- Conducted a literature review and scientific monitoring, identifying +100 relevant references, including research articles, reports, regional bulletins, and methodological notes.
- Presented weekly progress updates at team meetings, covering literature monitoring, methodology, statistical analyses, and findings.
- Identified relevant data sources.
- Developed the statistical analysis plan.
- Analyzed INSEE data to calculate rates for 4 infant mortality indicators.
- Analyzed French National Health Data System (SNDS) data to calculate rates for 3 stillbirth indicators.
- Collaborated with the team to select appropriate statistical modeling methods.
- Analyzed temporal trends using R and Joinpoint Regression Program, including joinpoint regression, the Mann–Kendall test, and ARIMA models.
- Calculated the Comparative Mortality Index (SMR) to identify excess mortality at the departmental level.
- Compared mortality rates across European countries using OECD data.
- Interpreted findings and produced +70 figures and visualizations and +10 summary tables.
- Authored a scientific article in full (Introduction, Methods, Results, and Discussion) and a report to communicate the study findings.

2024 **3-Month Clinical Rotation in Hematology**
Oran University Hospital (EHU Oran)

2024 **3-Month Clinical Rotation in Urology**
Oran University Hospital (EHU Oran)

2023 **3-Month Clinical Rotation in Obstetrics**
Oran University Hospital (CHU Oran)

2023 **3-Month Clinical Rotation in Pediatrics**
Amiral Cabral Clinic

EDUCATION

2026 2025 **Master's Degree (M2) in Public Health – Methodology and Statistics in Biomedical Research**
Faculty of Medicine, Université Paris-Saclay

2025 2024 **Master's Degree (M1) in Public Health**
Faculty of Medicine, Université Paris-Saclay

2024 2017 **Doctor of Medicine (MD)**
Faculty of Medicine, University of Oran 1
